Cat ET 2017A

What's New

CATERPILLAR®

Caterpillar Confidential: Yellow

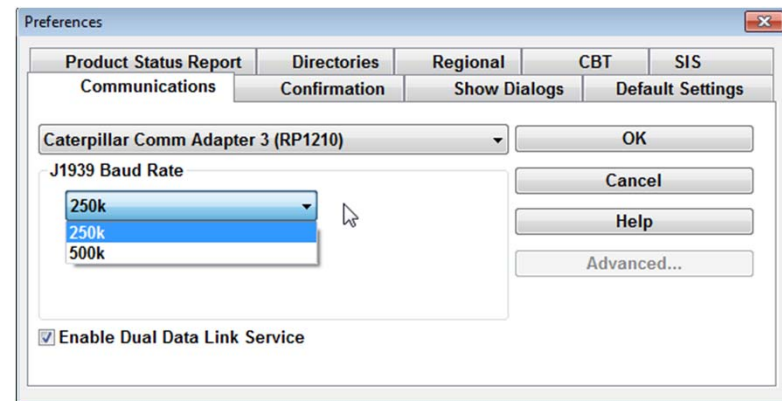

Changes

- Communications Adapter 3 (CA3) Update
- Marine Sea Trial Changes

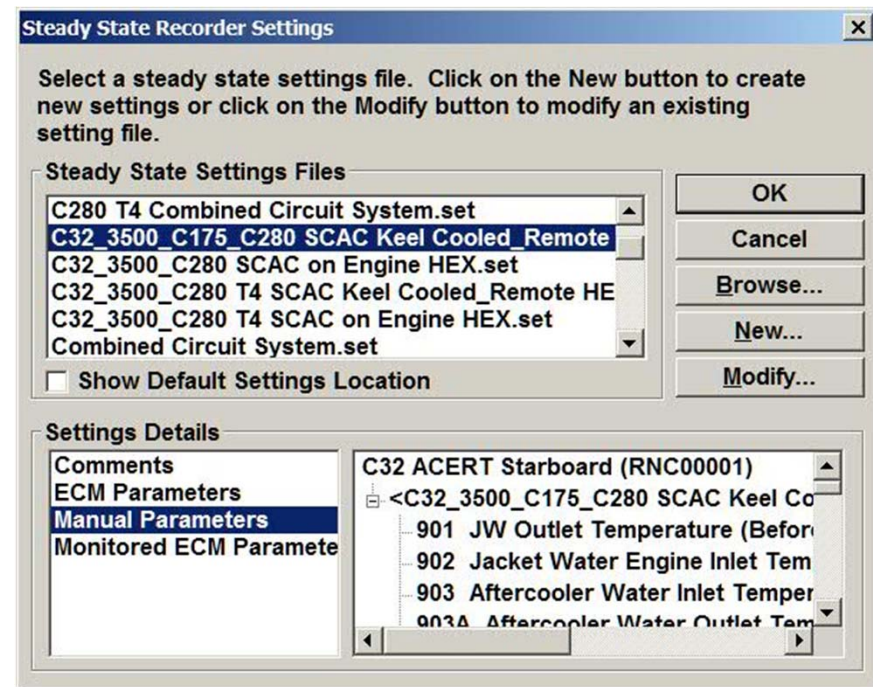

Communications Adapter 3 (CA3) Update

- The service tool contains a new version of the Communications Adapter 3 (CA3) software. The new software allows flashing at 500 kilobits on supported applications.

Marine Sea Trial Changes

- In the marine Sea Trial Steady State feature, the 9xx manual entry parameters have been updated. Some numbers have been removed, and some existing numbers have new descriptions. New numbers have been added with new 900 number designations for current engines, including Tier 4 SCR based aftertreatment engines.
- The steady state setup files names and content have changed, and are based on the engine cooling system.
- The Sea Trial Feature is now supported on marine fixed speed engines.

Questions

- If you have additional questions regarding this presentation, or any other Cat ET questions please contact the Helpdesk at one of the phone numbers listed to the right
- Or you can use e-mail at Ebiz_Apps_Support@cat.com
